THE CHANGAN ADVANTAGE

Changan Auto has a rich culture steeped in innovation and technological breakthroughs, which have firmly established our brand as one of the largest auto companies from the world's largest automotive market. By producing efficient, safe, stylish and affordable cars, Changan has earned the business and trust of many satisfied customers and the admiration of many happy employees.

With extensive investments in advanced research and innovative technologies, Changan Auto has formed a global R&D organization with over 7,000 engineers and researchers from multiple nationalities, working from our facilities located in: Chongqing, Beijing, Shanghai and Harbin in China, Turin in Italy and Yokohama, Japan. Two more facilities are located in the UK (first in Nottingham and subsequently in Birmingham) and the second in Detroit, United States. Here, our international teams conceptualise ideas that bring you advanced high-tech products, trend-setting vehicle designs, innovative safety technologies and strong performance.

On a mission to build safe, reliable and durable vehicles that people want and need, Changan invests 5% of its annual sales revenue on product R&D, with a total resultant investment of 49.6 billion dollars. A further 2 billion dollars was assigned towards building one of the most advanced International Standard Vehicle Testing Fields. This test location field is frequently utilised by other car manufactures vto test their vehicles. The car tests cover crash safety, brake performance, chassis tests, NVH and drive systems.

A 2021 JD Power study on New Vehicle Initial Quality (IQS), revealed Changan as the NO.1 in New Vehicle quality across all Chinese brands. Changan also ranked 7th amongst mainstream JV Global brands, including luxury brands.

CHANGAN USES THE BEST PARTS SUPPLIERS IN THE WORLD TO MANUFACTURE ITS CARS

SUPPLIER LIST	SUPPLIER COUNTRY	PARTS SUPPLIED
DENSO	 JAPAN	AIR CONDITIONING
 DUNLOP  YOKOHAMA	 JAPAN	TYRES AND RUBBER COMPONENTS
SONY <i>Pioneer</i>	 JAPAN	SOUND SYSTEM
AISIN	 JAPAN	TRANSMISSION
 BOSCH	 GERMAN	ECU, SAFETY SYSTEMS, ELECTRICAL COMPONENTS
 Continental	 GERMAN	TYRES AND ELECTRICAL COMPONENTS
 BorgWarner	 USA	DRIVE MODULES & HYBRID MODULES
 HUAWEI	 CHINA	INFOTAINMENT SYSTEMS AND SCREENS

VALUE PROPOSITION

International Suppliers Background

Changan uses the same International suppliers (for hardware and software) as European, American, Korean and Japanese automakers. Suppliers such as Bosch, Continental, Borgwarner, Denso, Pioneer, Sony, Aisin, are examples.

Warranty Back-up for real peace of mind

Revolutionising the concept of 'worry-free' warranty
Our 6 year/200,000 km warranty is the best and first of its kind in Africa.

Premium After-sales Service

24HR roadside assistance and available workshops nationwide Home service and Guaranteed spare parts availability. Lowest cost of maintenance.

Guaranteed Resale Value

Available via trade-in option (up to 5 year depreciation).

Guaranteed Best Value for money

Best quality / price ratio. Most affordable in Nigeria compared to equivalent Japanese, European, Korean and American rivals from same segment. All with more generous features and options.

Financing (Payment) Plans available

Payment facilities and plans are available on all changan models with a starting brand equity of 10% only.

MIKANO INTERNATIONAL Protection Shield

MIKANO MOTORS is a sub-division of MIKANO INTERNATIONAL Limited and shares the same level of customer satisfaction orientation. The Mikano International brand is well known and trusted, with consistent and reliable success for 3 decades.

JOINT VENTURES:

FUTURISTIC AND HARMONIOUS STYLE

The unmistakable design language of the Uni-K perfectly embodies the core of Changan's design philosophy. The imposing 3D grille features finely crafted detailing that underscores the powerful drive that lies in store for the pilot.

Precisely modelled whale-tail DRLs complement the main headlights while Accentuated wings contribute to the striking front-view. Changan's characteristic profile is enhanced by a flat flyline and dynamic lines along the windows.

Resting on the UniK's muscular shoulders, the aerodynamic roof tapers towards the rear into a sophisticated airship-shape rear spoiler. This emphasizes the finely defined LED taillights and Changan's signature integrated light strip.

ENGINEERED TO PERFECTION

The sleek and streamlined appearance of the Uni-K is further enhanced by the retractable door handles when hidden from sight.

Premium aesthetic touches with distinct design accents and precision aerodynamic engineering improve driving stability and ensure an intensely satisfying drive.

Elegant 21" wheels and Quad exhaust vents provide the ideal sporty balance to complete this masterpiece.

ENVELOPE YOUR BODY WITH PLUSH ALL- ROUND SUPPORT

The opulent interior combines ample and comfortable head and legroom. Rear- seat passengers equally enjoy the Forest Air climate from the rear vents and the comfort of a central arm rest equipped with two cup holders.

UNCOVER THE DESIGN DNA FOR CLASS AND COMFORT

- Nappa leather seats with heating and ventilation functions.
- Yoke-shaped multi-functional steering wheel.
- Chrome and leather-finished dashboard.
- Rear ac vents.
- Front and rear adjustable headrests.
- Front and rear cup holders.
- Center and rear armrest.
- 8- Way electric adjustable driver's seat + memory.
- 4- Way electric lumbar support for driver's seat.
- 4- Way electric adjustable co-pilot seat.

GO WIRELESS WITH EASE

Ultra-fast phone charging with wide-range compatibility; (the latest Qi V1.2.3 communication protocol).

Wireless screen mirroring functionality and Apple car-play to keep you connected and entertained.

And if you must stay “wired”, USB ports at the front and rear ensure you and your passengers still have access to charging devices.

SMART COCKPIT WITH SCREEN MIRRORING AND VOICE CONTROL

The intelligent dual screen design with ultra-wide angle, high-resolution and adaptive backlight control protects your eyes from fatigue while driving.

Control windows, panoramic sunroof, music settings and so much more, with the voice activation feature.

The UniK's Advanced Sony audio system features 12 premium speakers + subwoofer and 10-channel independent DSP power amplifier. The innovative "headrest mode" allows the driver to personally enjoy his music without disturbing passengers; an extremely useful feature for when passengers would prefer to rest or nap.

Additional features include a 3.5"+10.25"+9.2" TFT 3- screen Coloured Digital Cluster with Trip & Driving Information and Rear View Mirror Camera Displays, ON a 9.2" SCREEN.

Features varies between the trims

VIEW PICTURE PERFECT SKY VIEWS FROM A REMARKABLY GRAND PANORAMIC SUNROOF

Set your sights on the sky and beyond from the ultra-wide view of the UniK's panoramic sunroof. On extremely hot days, take shelter from the sun's rays with the electric curtain.

Highly effective cabin isolation provides excellent soundproofing, letting you choose to let the world in when open or close it to create your own zen sanctuary.

LIGHT UP YOUR WORLD..

Uniquely designed interior and exterior lighting create mystique and an unmistakable, eye-catching appeal.

Exterior lights

- Trident Daytime Running Lights (DRL) and Starship Headlights
- Full LED Automatic headlights.
- LED DRL.
- LED connected Taillights.
- LED Rear fog lights.
- LED Mirror side repeaters.
- LED High mounted brake light.
- Plate number lights.

Interior lights

- Ambient lighting with 64 colour choices.

INTEGRATED ADAPTIVE CRUISE CONTROL (IACC) WITH TRAFFIC JAM ASSIST (TJA)

Intuitive urban driving can be achieved with the Uni-K's IACC with Stop and Go function. This function lets your vehicle run safely according to the speed you set, and automatically slows down and stops if the vehicle in front also stops.

Motion resumes if the vehicle in front accelerates or changes lane. Working in tandem with the TJA, you'll be able to follow the vehicle in front safely and stay in your lane when traffic's heavy.

The Rear Cross Traffic Alert (RCTA) System Sensors have got your back. With strategically placement at the rear, the RCTA detects oncoming traffic when you're reversing, which triggers visual and audio alerts, so you can step on the brake to prevent collision from the rear.

AUTOMATIC EMERGENCY BRAKING (AEB) SYSTEM WITH PEDESTRIAN DETECTION AND FRONT COLLISION WARNING (FCW) SYSTEM

The AEB assists the driver to brake, and actively applies stronger brake force if it senses that the driver's brake force application is insufficient in the event that the system detects impending collision with another vehicle or a pedestrian crossing.

The FCW complements the AEB by displaying a warning on the instrument cluster and setting off an alarm to alert the driver to brake in time and apply a stronger braking force.

LANE KEEP ASSIST (LKA) AND LANE DEPARTURE WARNING (LDW)

The LKA helps the vehicle detect lane markers, and when it senses that you're falling below the minimum distance from the left or right side markings without using the turn signal, the system gently but noticeably counter steers to keep the vehicle in lane.

With LDW, the system can detect if you're switching lanes without using a turn signal. This eventually triggers the LDW to activate the warning light, audible alert, and steering wheel vibration to prevent you from abruptly and unsafely changing lanes.

REMOTE POWER TAILGATE WITH INDUCTION SENSOR

Conveniently open the trunk with the automatic tailgate which opens once it senses your foot under the rear bumper.

*Key must be within range of the vehicle to aid the vehicle's tailgate sensor.

2.0-LITER BLUE CORE TURBOCHARGED GASOLINE DIRECT INJECTION (TGDI) ENGINE

Excitement is just a drive away with the Uni-K, as it affords you breath-taking acceleration and pulling power, while keeping consumption at a minimum, thanks to its exclusive, advanced engine technology that makes driving as effortless as it is efficient.

Maximum power

290HP

Maximum torque

400NM

8-SPEED SHIFT-BY-WIRE AUTOMATIC TRANSMISSION (SPACE BATTLESHIP DESIGN)

With the Uni-K's remarkable transmission system technology, precise shifting for effortless acceleration can be achieved. For even more flexibility, this system has options for 2WD, Automatic, and 4WD lock to help you adjust the vehicle's response when navigating various road conditions.

It is also equipped with 3 driving modes (Normal, ECO & SPORT).
